04 About EVODEK®

- EVODEK® is a globally trusted brand in the innovation of wood plastic composites, striving to make you enjoy the outdoor living space.
- EVODEK® is committed to leading the WPC industry with patented extrusion technology, engineering exquisite wood plastic composite product and service, and making EVODEK® WPC an essential part of life for all.
- EVODEK® is committed to protecting the environment by manufacturing wood plastic composite made from recycled wood and plastic.
- Not only a material supplier, EVODEK® designs and produce wood plastic composite, tailoring to the special needs of the client, or meeting the harsh environment, with a well-equipped R&D facility and a professional design team.

EVODEK®--

Pioneer of Persisting in Uncapped WPC Innovation

Before

Natural Wood

Natural Wood dominates the market.
Cons: splinter, rot, termite, periodical painting.

1996

Traditional WPC

WPC was first introduced, with more water-resistant than wood, required significantly less maintenance, while providing the appearance and feel of natural wood.
Cons: poor screw holding & withdrawal performance.

2009

EVODEK® WPC

Leading to improve Traditional WPC, successfully realized deep grain surface on traditional WPC boards, and be the first to name it as "3D GRAIN" in the market.

2009

American WPC

The WPC makers in America shifted to the capped boards successively, with pure plastic coating on the traditional WPC boards.
Cons: feel of plastic.

2015

EVODEK® WPC

Innovatively launched GRAIN PRIME series boards, which mimic natural wood perfect by incorporating with its patent art color technology.

EVODEK® is Different

3D GRAIN + ART COLOR

The unique design of 3D wood grain surface makes it look just like natural wood.

EVODEK® CORE

This technology enables a deeper interface diffusion and mechanical interlock of raw materials.

EVODEK® DENSITY

High Density of 1.3g/cm³
A high density serves as proof of our commitment to the durability and quality of our products.

3D Grain and Art Color

EVODEK® 3D grain with art coloring technology perfectly mimics timber grain, merges the features of traditional composite and capped composite, interprets the meaning of wood plastic composite decking as the alternative to timber decking.

EVODEK® CORE

EVODEK® CORE by innovative dual-screw extrusion technology realizes a deeper interface diffusion and mechanical interlock of HDPE and wood flour particles, thereby ensures a higher strength and toughness, thereby guarantees longer life.

EVODEK® DENSITY

EVODEK® DENSITY, with advanced production process, embraces a high density of 1.3g/cm³, higher than most hard wood and counterparts in the industry, ensures better resistance to water, mold and termite.

EVODEK® Product Display

16 EVODEK® vs. Timber

EVODEK® WPC is higher cost effective than Timber over time, although you need to pay more to purchase.

Water Resistant

Corrosion Resistant

No Splitting

Free of Maintenance

Optional Color/Grain

Longer Life

Recyclable

18 EVODEK® WPC Features

Save Natural Resources

Wood alternative, reuse of recycled plastic and waste wood.

Better Performance

No splinter, barefoot friendly, free of maintenance, better resistance to mold, mildew, termite, water-proof, low material consumption, longer life.

Color and Style Variety

Compared with wood, EVODEK® wood plastic composite product has more choices of colors and styles;

Environmental Friendly

No glue, zero formaldehyde, 100% recycled.

DIY Feature

Compare with other alternatives: easy to install and re-install.

20 Customize Your Exclusive Deck

EVODEK®

...

EVODEK® does not only produce popular decking, but duplicates any natural grain to satisfy exclusive demand of your market.

EVODEK® Partner Strategy

EVODEK® is industry leading WPC manufacturer and supply chain manager.
EVODEK® works with Marketing Representatives, Dealers or Exclusive Agent from countries or regions.
EVODEK® is committed to the success of our partners first, and keep improving its support.

1

Marketing Representative

Refer to a natural person or an entity, to do sales and marketing activities locally for the factory, and make a deal between the client and the factory directly.

2

Dealer

Refer to the retailers in timber or building material business, or the builders in home improvement, landscaping or flooring. To keep stock and resell to the end users.

3

Agent

Refer to stockist or wholesale with mature distribution network, to keep stock and distribute/wholesale to dealers including retailers, builders or procurement bodies.

Support From EVODEK®

Sales Assistance

- EVODEK® Client Manager is ready to design exclusive marketing strategy for you with rich experience in local market.
- EVODEK® Product Professional is ready to teach your sales team everything they need to know about product knowledge, installation and after-sales service, to optimize customers consuming experience.
- EVODEK® Stock Manager helps to design scientific stocking plan with rich experience in stock management.

Brand Marketing

- Online marketing. Eg. Google SEO, social media including Facebook, YouTube, LinkedIn, etc.
- Offline marketing. Eg. Exhibitions, home shows, advertising circulation, etc.
- A dedicated website or web shop is to provide upon request.

Design Support

- EVODEK® design team is ready to provide marketing material design, website/webshop construction, and exhibition & home show booth presentation, etc.
- EVODEK® designs exclusive outdoor space for your customers.

Customization

- EVODEK® designs exclusive product lines tailored to your market.
- EVODEK® provides customized production to the special need of your customers, with our patented resources in design, function & performance and production facility innovation, etc.
- EVODEK® helps you in project bidding.

Aftersales Service

- Being responsive is how we do business. We actively serve our customers by developing new products tailoring to their special needs, providing a quick and satisfying response on complaints, and troubleshooting any issues that may arise before or after the sale.
- We care brand reputation, which is widely recognized by years of responsibility commitment for quality issues, we strive to build a brand that consumers trust, and we are able to be responsible for product quality;
- We emphasize on customer service. We focus on customer needs, infinitely closing to consumer needs, and go all out to improve customer satisfaction. We put customer service ahead of profit, and in fairness and sincerity;

Trusted Reputation

- Buy what you can trust, not what you can afford only.
- We focus on R&D and innovation in product design and production process, and continuing to invest in professional talents and WPC extrusion technology, thanks to which we have obtained dozens of patents;
- We care about the personalized needs of customers, and customize to produce hundreds of personalized products by today with a professional team of design and technician.
